

With the national and local electric grids getting cleaner all the time, you'll feel good knowing that your electric appliances create less and less demand for fossil fuels over time.

## THANK YOU!

Thanks to the Telluride Foundation and the Pinhead Climate Institute for bolstering electric power tools rebates.

Tri-State provides Beneficial Electrification programs and rebates to us as your local electric co-op. This enables us to extend the benefits to our members.

## OTHER REBATES OFFERED BY SMPA:

### RENEWABLE ENERGY REBATES:

- Solar Photovoltaic
- Small Wind Residential
- Solar Domestic Hot Water

### ENERGY EFFICIENCY REBATES:

- [www.smpa.com/energy#berebates](http://www.smpa.com/energy#berebates)

# BENEFICIAL ELECTRIFICATION

# WHAT IS BENEFICIAL ELECTRIFICATION?

**Beneficial Electrification** is the application of electricity to end-uses that would otherwise consume fossil fuels. Some examples would be traveling in an electric vehicle instead of a gasoline-burning one, heating your home with an electric heat pump rather than by burning natural gas; or replacing gas-engine powered tools like leaf blowers or weed whackers with electric versions.

Electrical applications are considered “beneficial” if they satisfy at least one of following conditions, without adversely affecting the others:

-  **They save consumers money.**
-  **They improve product quality, or consumer quality of life.**
-  **They reduce greenhouse gas (GHG) emissions.**
-  **They foster a more resilient electric grid.**

## BENEFICIAL ELECTRIFICATION REBATES:

### Electric Vehicles (EVs) and Charging Stations

- Up to \$250 - \$750 per EV depending on the type.
- Up to \$500 per Level 2 Residential Charger
- Up to \$2000 per Level 2 Public Charger
- Up to \$7,500 per Level 3 DC Fast Charger

### Green Medallion Home (All-Electric New Home Construction)

- \$750 per home; \$500 per unit of multi-unit
- Heat pump systems only
- No gas line present to residence
- Individual rebates still apply. (Heat Pumps, Water Heaters, Appliances, etc.)

### Electric Heat Pumps

- Up to \$2000 Air Source ( $\leq 2$  tons)  
\$1000/ton Air Source (3 - 5 tons)  
(\$20,000 rebate cap)
- add'l \$500/ton Air Source ( $> 5$  tons)

### Resiliency (Home Batteries)

- Up to \$750 for battery systems of 6kWh or larger  
(Does not apply to IC generators)  
(Programmed for Mon-Sat, 4-10PM)

### Outdoor Power Tools (New)

- 50% up to \$500 per Lawn Mower (36 V min. or corded)
- 50% up to \$150 per Snow Blower (36 V min. or corded)
- 50% up to \$100 per Chainsaw (18 V min. or corded)
- 50% up to \$100 per Trimmer, Leaf Blower, or Power Washer (18 V min. or corded)

### E-bikes & Electric Motorcycles

- \$150 per electric bicycle
- \$250 per electric motorcycle
- Intent is to replace commutes normally taken using fossil fuels.

Additional restrictions may apply. Learn more about rebates for EVs & Charging Stations, Heat Pumps, and Power Tools at [www.smpa.com/energy#berebates](http://www.smpa.com/energy#berebates).
